

School of Engineering

School Requirements on Doctor of Philosophy (PhD) Programs

In addition to the program requirements of the following Doctor of Philosophy (PhD) programs, all full-time and part-time PhD students are required to complete the school requirements, which aim to help students gain a wider exposure to multidisciplinary areas, and attain all-rounded learning by broadening their knowledge base:

- Bioengineering
- Chemical and Biomolecular Engineering
- Civil Engineering
- Computer Science and Engineering
- Electronic and Computer Engineering
- Environmental Engineering
- Industrial Engineering and Logistics Management
- Mechanical Engineering

Students are required to take at least a 3-credit course at 5000-level or above outside their programs offered by the School of Engineering. The 3 credits may be satisfied by courses from other Schools upon approval.

In some exceptional cases where students can provide sufficient justifications and obtain prior approval from their supervisors, PG Coordinators, and Heads of Department/Program Directors or designees, they are allowed to take the 3-credit course within their home departments/programs but the course must be in areas outside their specialty.

Details of the requirements are available on the website of the School of Engineering at <http://www.seng.ust.hk/pg/>.
