School Requirements on Doctor of Philosophy (PhD) Programs

In addition to the program requirements of the following Doctor of Philosophy (PhD) programs, all full-time or part-time PhD students admitted in 2013/14 and onward are required to complete the school requirements, which aim to help students gain a wider exposure to multidisciplinary areas, and attain all-rounded learning by broadening their knowledge base:

- Bioengineering
- Chemical and Biomolecular Engineering
- Civil Engineering
- Computer Science and Engineering
- Electronic and Computer Engineering
- Environmental Engineering
- Industrial Engineering and Logistics Management
- Mechanical Engineering

Specific school requirements are:

- Students are required to take at least a 3-credit course at 5000-level or above outside their programs offered by the School of Engineering;
- The above 3 credits may be satisfied by courses from other Schools upon approval;
- In some exceptional cases where students can provide sufficient justifications and obtain prior approval from their supervisors, PG Coordinators, and Heads of Department/Program Directors or designates, they are allowed to take the 3-credit course within their home departments/programs but the course must be in areas outside their specialty.

Please refer to the website of the School of Engineering for details of the requirements.
